Narrative 1: Thank you for letting us have the chromebooks and if we do not have chromebook then we have to write with our hands and people who have bad handwriting it hard for them so thank you so much Thank you for delivering the chromebook to use and thank you.

Karla: Thank you for letting us use the chromebook instead of doing the work in a piece of paper. If we didn't have chromebook we had to do it by hand writing and that will spend more time. Chromebook is more easier than writing on a piece of paper, the chromebook is much better because we could go to google classroom and do essay.
